Please give a concise description of this course including the purpose and what students will demonstrate and/or gain from this course.	
<p>The purpose of Visual Narratives (a 12th grade English language arts course) is to develop reading, writing, language, reasoning, and critical thinking skills. These skills will be developed through traditional texts such as novels, articles, essays, and research papers as well as modern ‘texts’ such as art and photography, feature film study, advertising analysis, graphic novels, comic strips, and infographics. Students will be able to analyze and process advertising claims, arguments, and rhetoric in its imagery as well as its language. Students will gain inference and analytical skills by exploring and writing about fine art. They will research popular culture and compose a research paper in preparation for university studies. They will hone composition skills through planning, peer review, and editing written work throughout the semester. The literature standards and objectives will be met as they analyze and critique fiction found in graphic novels as well as film studies. Finally, the course should also enhance language and vocabulary skills pursuant to college and post-secondary ventures. Ultimately students will be involved in extrapolating meaning where some matters have been left uncertain from imagery-rich sources that are familiar but often overlooked.</p>
